

### **1.Title: High-priority error on home page when providing email address in placeholder**

**Description:** When attempting to provide an email address in the placeholder field on the home page, a high-priority error occurs. The expected response code of "354" is not received, and instead, the code "550" is returned. This issue requires immediate attention and resolution.

**Steps to Reproduce:**

- 1.Go to the home page of the website.
- 2.Locate the email address placeholder field.
- 3.Enter an email address.
- 4.Observe the response code received.

**Expected Result:** The response code "354" should be received.

**Actual Result:** The response code "550" is received.

**Severity: High-priority**

### **2.Title: Non-functional 'Join Now' button in navigation menu**

**Description:** The 'Join Now' button in the navigation menu lacks functionality. Upon clicking the button, it should reveal an email input field with a placeholder, allowing users to enter their email address. However, no action is triggered when clicking the button.

**Steps to Reproduce:**

- 1.Go to the website.
- 2.Click on the 'Join Now' button in the navigation menu.
- 3.Observe the expected behavior.

**Expected Result:** Clicking the 'Join Now' button reveals an email input field with a placeholder.

**Actual Result:** No action is triggered upon clicking the 'Join Now' button.

**Severity: Medium**

### **3.Title: Inconsistent button placement on home page**

**Description:** The placement of the "Join Free" button on the home page is inconsistent. Currently, it appears below the text, which may cause confusion for users. The button should be positioned closer to the call-to-action phrases for improved flow and intuitive user interaction.

**Steps to Reproduce:**

- 1.Go to the home page of the website.
- 2.Locate the "Join Free" button.
- 3.Observe its placement in relation to the surrounding text.

**Expected Result:** The "Join Free" button is positioned closer to the call-to-action phrases.

**Actual Result:** The "Join Free" button appears below the text.

**Severity: Low**

#### **4.Title: Lack of formatting and organization in content sections**

Description: The content sections, including Privacy Policy, Terms Condition, About Us, Contact Us, and Advertise, lack proper formatting and organization. The absence of clear sections, headings, and bullet points makes it challenging for users to locate key information quickly and easily.

##### **Steps to Reproduce:**

- 1.Visit the respective sections (Privacy Policy, Terms Condition, About Us, Contact Us, Advertise) on the website.
- 2.Observe the formatting and organization of the content.
- 3.**Expected Result:** Clear sections, headings, and bullet points present to enhance readability and information retrieval.
- 4.**Actual Result:** The content appears as a wall of continuous text without clear divisions.

**Severity: Low**

#### **5.Title: Lack of social proof in the newsletter section**

Description: The newsletter section lacks social proof in the form of testimonials or user reviews. Including positive feedback from existing subscribers can help build trust and credibility, encouraging more users to join the newsletter.

##### **Steps to Reproduce:**

- 1.Visit the newsletter section on the website.
- 2.Observe the absence of social proof elements.
- 3.**Expected Result:** Testimonials or user reviews are included in the newsletter section.
- 4.**Actual Result:** No social proof elements are present.

**Severity: Low**

#### **6.Title: Inconsistent use of whitespace in content sections**

Description: The content sections, such as Privacy Policy, Terms Condition, About Us, Contact Us, and Advertise, lack proper spacing between paragraphs and sections. The dense text formatting hampers readability and ease of navigation.

**Steps to Reproduce:**

1. Visit the respective sections (Privacy Policy, Terms Condition, About Us, Contact Us, Advertise)
2. Remove Inconsistent use of whitespace.
